

The patented **MULTICLIP CLP 270** aluminum perimeter profile allows floor edge finishing without baseboards. A 5/8" (16mm) internal cavity allows 3/16" (5mm) of differential movement. This profile is also suitable along sliding door tracks and as entrance mat framing.

multiclip CLP 270

MULTICLIP CLP 270 A* Anodized Aluminum

This profile is available in three finishes: silver (AS*), gold (AO*), bronze (AB*). The versatile profile section in three chromatic variations can be used with all floor types.

Mounts with Clip CL 80 P + aluminum base CLB 80 ANF/ANT.

MULTICLIP CLP 270* Aluminum sublimated

The coating technique for sublimation allows a perfect simulation of the wood grain. The three wood shades Oak Decapé (RD), Oak Wenge (RW) and Grey Oak (RG), provide an excellent resistance wear resistance.

Mounts with clips CL 80 P + aluminum base CLB 80 ANF / ANT.

MULTICLIP CLP 270* Wood Laminated Aluminum

This melamine laminated aluminum profile is available in 8 different finishes. The smoothly-embossed melamine is resistant to abrasion, easy to clean and blends easily with existing floors.

Mounts with Clip CL 80 P + aluminum base CLB 80 ANF/ANT.
